Insulated Weatherproof Enclosures

General Information

Lewden insulated weatherproof enclosures are manufactured from self extinguishing ABS material, and are available in two popular sizes; 4 & 8 modular ways

Due to the enclosure height, they offer a significant amount of wiring space, and are suitable for use with the complete range of Lewden circuit protection devices, including single module RCBOs

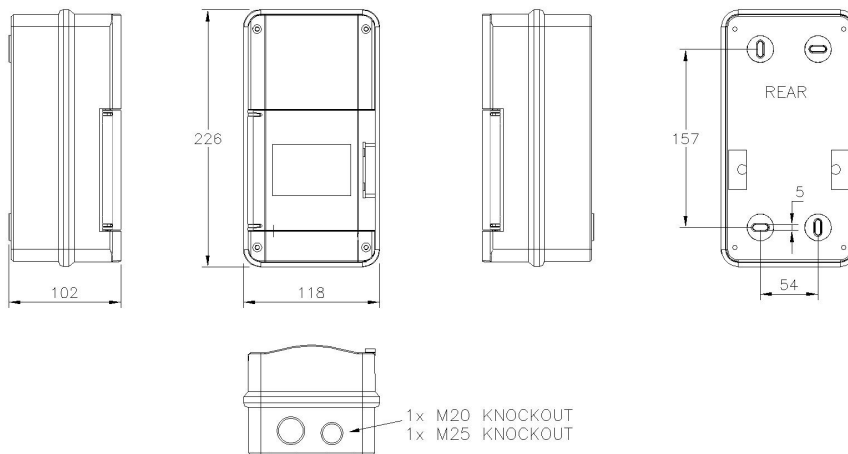

Enclosures are supplied complete with;

- 35mm din rail for component mounting
- Neutral and Earth bars
- Neutral flex for connection of the incoming device to the neutral bar
- Single pole comb busbar

The enclosures are arranged with round knockouts

Technical Data	
Reference standard	EN62208
Ingress Protection rating EN60529	IP55
Impact resistance	IK07
Glow wire rating	960°C
Finish colour	White
Access door	Transparent
Earth bar max conductor size	16mm ²
Neutral bar max conductor size	16mm ²
Single Pole comb bus bar rating	63A
